Crisis Information Management Company joins Cyber Incubator

ASET Partners launches business unit at bwtech@UMBC

Baltimore MD (August 24, 2011) ASET Partners, an IT and systems engineering company headquartered in Alexandria, VA, has recently launched a unit at the Cyber Incubator at bwtech@UMBC Research and Technology Park.. ASET Partners joined bwtech’s incubator to participate in the growing cybersecurity business community at UMBC and to help address the company’s rapidly growing workforce needs.

“We are delighted to have ASET Partners join us at bwtech@UMBC. ASET is the third out-of-state company to join our growing cybersecurity community,” says Ellen Hemmerly, Executive Director of bwtech@UMBC Research and Technology Park.

ASET Partners is an information technology management and consulting firm with a proven track record in developing tailored technology solutions to meet each customer’s unique operational drivers. ASET Partners has extensive experience in implementing crisis information management systems throughout the entire development lifecycle in order to provides secure real-time information sharing to help managers make decisions quickly.

ASET Partners successfully managed the development and currently administers one of the largest instances of cyber crisis information management system within the Department of Homeland Security (DHS). This instance of crisis management was implemented within six months to replace a failing legacy system, and ASET Partners’ implementation here of industry best practices in project management and systems development resulted in efficiencies that saved DHS an estimated \$8 million in lifecycle costs.

UMBC, www.umbc.edu, ranks fourth among U.S. research universities in the production of IT degrees and certificates, and it is the largest producer of such graduates among research universities in Maryland, Washington, D.C., and Virginia. The campus offers a master’s degree and a graduate certificate in cybersecurity, and it is rated a Center of Excellence in information assurance education and research. Thousands of UMBC graduates work in the intelligence community for key federal agencies and private partners.

bwtech@UMBC, www.bwtechumbc.com, located adjacent to UMBC’s campus, is a 71-acre

research and technology community that is home to nearly 90 technology and life science companies. Twenty of these companies are cybersecurity and 25 are life science companies.

About ASET Partners

ASET Partners was not founded as a result of a small business requirement, but by a group of individuals that held senior positions in Fortune 100 companies and recognized the inefficiencies and lack of ingenuity in such cultures. Thus, ASET Partners differentiates itself from other IT consulting companies by providing large company expertise with the nimbleness and efficiency of a small business - resulting in leading edge solutions and cost efficiencies for clients. ASET Partners has successfully collaborated with Federal, State and local stakeholders to implement comprehensive information management solutions based upon operational needs.
